2. POLICY TIMELINE 2015—2016

17 September 2015

EU ministers approve disputed quota plan: the Czech Republic, Slovakia, Hungary and Romania are outvoted at the ministerial meeting when member states decide to relocate 66,000 refugees from Greece and Italy to other EU countries.

25 October 2015

EU Leaders agree on 17-point plan of action on the Western Balkans Migration Route. This includes Point 14: “Reconfirming the principle of refusing entry to third country nationals who do not confirm a wish to apply for international protection (in line with international and EU refugee law and subject to prior non-refoulement and proportionality checks),” which is thought to have inspired the fYR of Macedonia to close its borders to any migrants not of Syrian, Afghan, or

10 December 2015

The European Commission begins legal action against Greece, Croatia and Italy for failing to correctly register migrants. It also launches an infringement case against Hungary over its asylum legislation. It says the three failed to implement the Eurodac Regulation, which involves fingerprinting asylum seekers and registering the data within 72 hours.

7 March 2016

European leaders reached a tentative agreement with Ankara on the migrant and refugee crisis: the mechanism described as “one in, one out” would be that for every Syrian returned to Turkey from Greece, the EU would then resettle one Syrian from Turkey.

16 October 2015

EU announces it will give Turkey 3 billion EUR in aid and will fast-track approval of visas to Europe for Turkish citizens in exchange for increased controls on the flow of migration from the Middle East to Europe, and taking back migrants whose asylum applications have not been granted.

03 December 2015

Pakistan refuses to allow 30 deported Pakistanis to disembark plane from Athens.

11 February 2016

NATO sends naval patrols and air surveillance in order to deter smugglers in the Mediterranean Sea, as well as to gather intelligence and monitor migrant flow alongside Greek and Turkish coast guards.

18 March 2016

European Union and Turkey signed an agreement which outlines the plan to end irregular migration flows from Turkey to Europe. For more information please see previous Flows Compilation Report which is available [here](#).

3. RELOCATIONS

Based on the Commission's proposals, the Justice and Home Affairs Council adopted in September 2015, two decisions to relocate **160,000** asylum seekers from Italy and Greece, to assist them in dealing with the pressures of the refugee crisis. Under the emergency relocation scheme, persons in need of international protection with a high chance of having their applications successfully processed (EU average recognition rate of over 75%) are relocated from Greece and Italy, where they have arrived, to other Member States where they will have their asylum applications processed. If these applications are successful, the applicants will be granted refugee status with the right to reside in the Member State to which they are relocated. Following the EU-Turkey agreement of 18 March 2016, the Commission has tabled a proposal on the 21 March 2016 to make available further places for resettlement or other forms of legal admission of persons in need of international protection from Turkey by amending Council Decision (EU) 2015/1601 of 22 September and reallocate 54,000 places which were foreseen for relocation for the purpose of resettling Syrians from Turkey to the EU. The EU Council has endorsed this proposal but the opinion of the European Parliament on the Decision is currently pending.

The relocations should take place over two years (September 2015-2017), with the EU budget providing financial support to the Member States participating.

IOM is implementing the pre-departure health assessments, pre-departure orientation and actual transfer of the beneficiaries in coordination with Italy and Greece as well as the Member States to which relocation takes place.

The European Commission has made available an overview of Member States' support to the EU relocation mechanism. To date, **25 out of the 31 participating countries have committed to make places available** under the scheme, namely Belgium (530), Bulgaria (1,302), Croatia (26), Cyprus (80), Czech Republic (50), Estonia (136), Finland (970), France (3,320), Germany (1,250), Ireland (273), Latvia (491), Liechtenstein (43), Lithuania (500), Luxembourg (200), Malta (131), the Netherlands (1,025), Norway (170), Poland (100), Portugal (1,642), Romania (1,502), Slovakia (100), Slovenia (130), Spain (400), Sweden (300) and Switzerland (460) with an overall number of only **15,131 places**. 4. BULGARIA

Background and latest figures

From the start of 2016 until **15 September*** the Bulgarian Ministry of Interior (Mol) apprehended a total of **13, 648** migrants who were attempting to enter, exit or reside in the country irregularly. **3,742** have been apprehended on entry, **3, 775** on exit and **6, 131** inside the country.

During the period, between 1—15 September, **1,307** migrants were apprehended. Of these, **157** were apprehended on entry, 143 were detected near the border with Turkey and 14 near the Bulgarian—Greek border. During the same period, a total of **1,057** migrants were apprehended on exit—**392** without previously being registered as residing/entering the country and **665** who have been registered by the authorities. The majority, 1, 021, have been detected near the border with Serbia, 9 at the Bulgarian—Turkish border and 10 near the border with Romania. During the first two weeks of September, **757** migrants were detected irregularly residing in the country.

8 September - After the meeting in Sofia, the Greek Citizen's Protection Minister, Nikos Toskas and the Bulgarian's Interior Minister Roumyana Bachvarova decided to start joint patrols along the Greek-Bulgarian and Bulgarian-Turkish borders to prevent undocumented migrants from continuing their journeys. Moreover, as of 20 September, Bulgarian and Serbian joint Border Police patrols are planning to start patrolling the common border area upon receiving an expected approval from the respective authorities—Mols and the Bulgarian parliament.

9 September – The Mol and the State Agency for Refugees (SAR) announced plans to eventually establish a new SAR run reception centre. This is needed as the capacities of the currently functioning ones are gradually filling. The SAR reception centres, for example, are 97% full as of 20 September, 2016 (total capacity of 5,190).

15 September – SAR has established the first “closed” center that is meant to limit the freedom of movement of asylum seekers in certain cases. The centre is to accommodate a maximum of 60 migrants, thus increasing the overall capacity of SAR to 5,250. Currently, the center is within the premises of a Mol detention center in Sofia (Busmantsi) and guarded by Mol officers. There were 8 persons accommodated there as of 21 September. These are Afghan Nationals that got involved in a massive fight between migrants in the beginning of September in Harmanli, the largest SAR facility. The Mol informed that “restricted movement zones” will be introduced in the SAR center in Harmanli as well.

16 September– Nationalist parties (the Patriotic Front and Ataka, represented in the parliament) organized a new protest in front of the SAR reception centre “Ovcha Kupel” in Sofia. The speakers requested the removal of the centre from Sofia. There were no incidents reported. This is the second protest after another one that occurred in Harmanli in the beginning of September and led by the same political parties.

16 September - The European Commission announced that it would deliver EUR 108 million in emergency assistance for border defense and for dealing with the migrant flow. The Commission would review plans for additional aid in the amount of EUR 52 million.

The Bulgarian prime-minister Boyko Borissov requested another 100 Frontex officers to be deployed in Bulgaria in addition to the 150 Frontex officers that are currently working in support of the Border Police. Once again, he announced that the new border control and management system for the Schengen area (European Border and Coast Guard) would start functioning on 6 October, 2016 at the Bulgarian—Turkish border. This has been confirmed by the EU Commissioner for Migration, Home Affairs and Citizenship Avramopoulos on 20 September, 2016.

Known entry and exit points

The main entry points between Bulgaria and Turkey are border checkpoints Kapitan Andreevo, Lesovo and Malko Tarnovo. Migrants and refugees who are coming from Greece mostly use green areas near Kulata-Promahon checkpoint or available routes in Petrich region. Most migrants and refugees enter Bulgaria from green border on foot. Those coming from border checkpoints usually enter by hiding in buses or other vehicles. Undetected migrants continue their journey via taxis and private transportation to external borders or to big cities to find a means of onward transportation out of the country.

5. CROATIA

Recent Developments

The total number of migrants and refugees who have entered the country from the border with Serbia and have been registered at the Winter Reception and Transit Centre in Slavonski Brod (WRTCSB) since the start of 2016 is **102,275**. Since the closure of the so called “West Balkans route” on 9 March 2016, the influx and transit of migrants and refugees to Croatia vs. that in the period **from 16 September 2015 to 9 March 2016** ceased as a high-volume transit. However, there are still arrivals of irregular migrants, as well as the Dublin Regulation-based returns from other EU Member States.

Key Findings and Advanced Notifications

As of **21 September**, the cumulative arrivals to Greece over land and sea for 2016 stand at **168,390**. According to the Hellenic Coast Guard, during the reporting period, there were more than **8** incidents in the Aegean sea.

19 September - A tension broke out at Moria hotspot on the Greek island of Lesbos. At the site, which was hosting around 5,600 migrants at the time of the fires, single males began to protest the Government's intentions by provoking damages and burning much of the infrastructure. The Fire Department arrived shortly thereafter but around 60% of the facilities were completely damaged, as well as many tens of acres of olive groves outside the camp, after the fires were put out. There were no reported injuries as a result of the turmoil. In the meantime, according to the Shipping and Island Policy Minister, Thodoris Dritsas, a vessel was sent to Lesbos today to host migrants and refugees with families as a priority until the hotspot is operational again. The vessel will be able to host around 1,000 people and a second one could be dispatched depending on needs, as per an interview with Dritsas about the incident. Furthermore, UAMs have already been relocated to Pikpa with the intention of moving them again to Athens, as they are excluded for the EU-Turkey agreement. According to IOM estimates, there were around 150 UAMs transferred from the site.

6. HUNGARY

Key Findings and Recent Developments

From 01 January 2016 to 21 September 2016, a total of **18,556** migrants and refugees were registered arriving in Hungary. Due to the barbed-wire fence in place along the Serbian and Croatian borders, there have been reduced numbers of arrivals since 17 October 2015. In the current reporting period, there were **98** new arrivals, a significant **increase** from 24 arrivals during the previous reporting period.

15 September - According to IOM Hungary, 7,218 asylum claims have been submitted in the transit zone between Serbia and Hungary. Number of migrants waiting outside of the transit zones have dropped from 400-500 in average to 100-500, most probably due to the trend that migrants register at the transit zones, but then go back to Serbian facilities and wait (35-60 days) until it is their turn to file their asylum claim in the border check point. Despite the decrease in numbers of stranded migrants, police have posters for recruiting new border control personnel, they would like to train and increase border police numbers by 3,000 people.

Cumulative arrivals to Hungary in 2016

Known entry points

The border in Hungary has been officially closed since September 2015 with the completion of the fence. The migrants have been able to cross the border only through the official crossing transit points of Tompa and Roszke on the border with Serbia. During the period between 4 August and 4 September, a total of **3,845** migrants have been apprehended while trying to cross Serbian-Hungarian border illegally. **52%** (2,001) were prevented/stopped by the border police and **48%** (1,844) were returned back to the Serbian side.

Apart from occasional arrivals through Romania and Croatia, there are no indicators that the route could have changed following the official closure of the Western Balkans route.

Known entry points: Serbian border-Röske, Tompa, and Assotthalom (under construction).

7. ITALY

Key Findings and Advanced Notifications

From 1 January 2016 to 21 September 2016, **130,567** migrants are reported to have arrived by sea, which is a 1,8% more than the arrivals registered in the same period in 2015. IOM data is adjusted according to the official figures provided by Italy's Ministry of Interior every week. According to MOI, Nigerians, Eritreans, Sudanese and Gambians represent 58% of all arrivals in the first 8 months of 2016, followed by migrants from Ivory Coast, Guinea, Somalia, Senegal, Mali.

16 September- At the first post-Brexit EU summit, Italy's Prime Minister Matteo Renzi declared himself not satisfied about the minimal progress to address the migrant crisis in a shared manner. EU leaders reiterate the need to speed up the relocation process, though they could not find any new solutions to share the burden of constant arrivals of migrants whose citizenships are excluded from the Relocation agreement. According to Italy's Ministry of Interior, **158,387** migrants are hosted in formal reception centers in Italy as of 20 September.

Relocations: As of 21 September, out of a total of 5,297 individuals relocated, 1,157 departed from Italy. As the relocation process from Italy continues to be slow and number of migrants eligible for relocation increases, many are trying to find alternative ways to continue their journey toward other European countries.

According to IOM Italy, some 40 migrants are planned to be relocated from Italy to Switzerland on 23 September.

Number of Migrants and Refugees Relocated from Italy

Known entry and exit points

Known entry points: Migrants are usually rescued in international waters in the Central Mediterranean Sea and brought to mainland. Main ports of disembarkation are Augusta, Pozzallo, Catania, Palermo, Messina, Lampedusa and Trapani (Sicily), Reggio Calabria, Crotone, Vibo Valentia, Corigliano Calabro (Calabria). Over the last two weeks, almost all disembarkation sites have been used due to the high number of rescue operations, including Brindisi and Taranto (Apulia), Cagliari (Sardinia) and Salerno (Campania). Alongside ordered disembarkations from rescue operations, a small but steady number of small ships succeed in reaching Italian coasts autonomously.

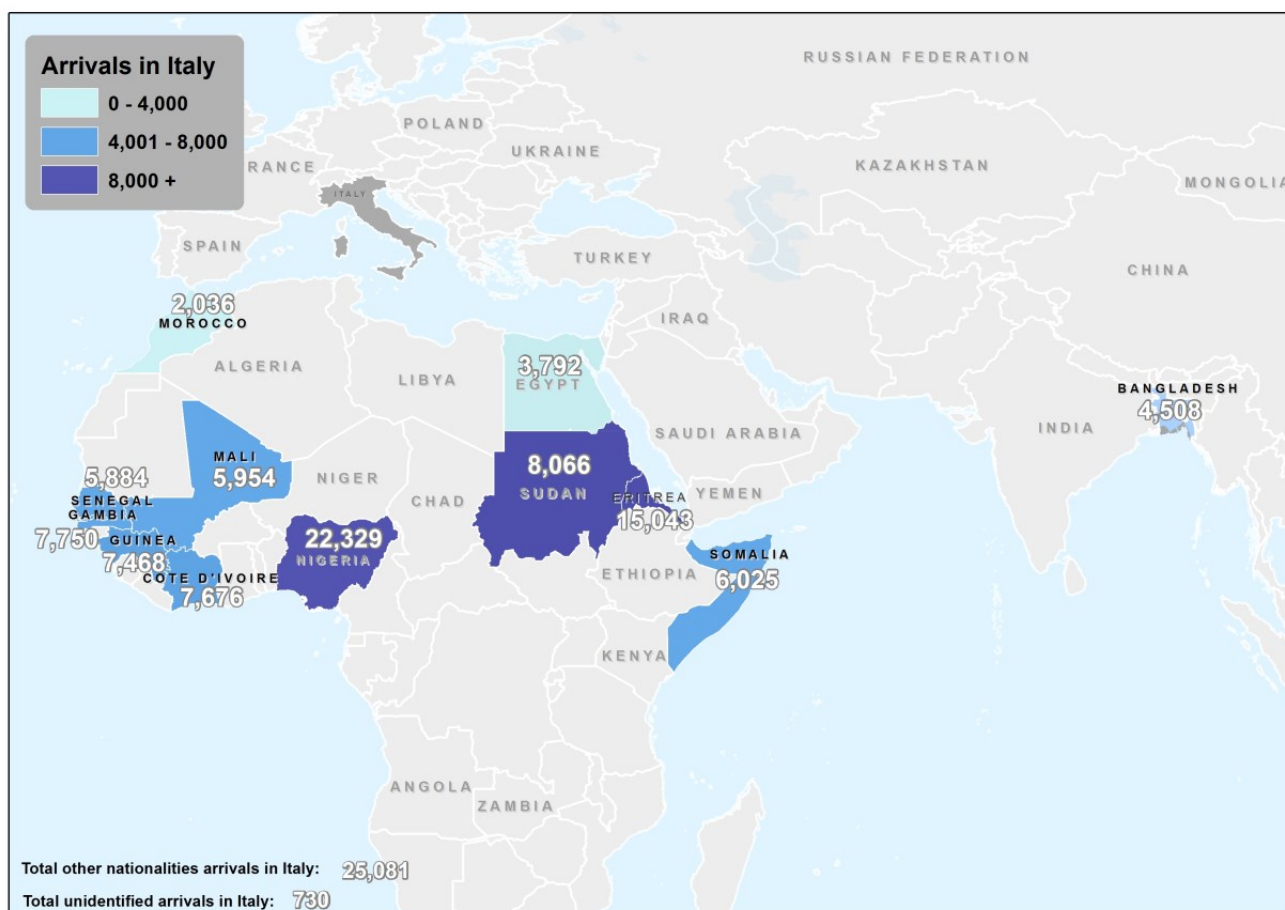

Known exit points: As exit points towards neighbouring countries (France, Switzerland and Austria) are almost totally closed, more migrants trying to reach other European countries are stranded in towns in the border areas. Mainly but not exclusively from Sudan, Eritrea and Ethiopia (Oromo), unaccompanied minors and women with small children are among them. On 19 September, a new temporary reception center opened in Como with a capacity of 300 beds to avoid migrants willing to reach Switzerland to sleep outdoor around the train station. On the contrary, the Municipality of Rome last week refused to open a temporary reception centre in the city, while hundreds of migrants are reported to gather around Tiburtina train station, helped by some volunteers' organizations. Italian authorities keep organizing removals of migrants from border areas bringing migrants back to reception centres in the South of Italy or deporting them to origin.

Key Findings and Advanced Notifications

Since the beginning of 2016, a total of **99,187** migrants and refugees have been registered entering Slovenia. From 7 September up to 21 September, there were **no registered arrivals** through official entry points.

9 September—the Slovenian Government sent a diplomatic note to Austria on Friday to argue that its border checks on what is the EU's internal border were unjustified and to call for enhanced dialogue on future measures.

12 September—Two protesters who cut through the razor wire fence in the south of the country during a protest in December last year have been sentenced to a month-long sentence.

12 September —After meeting Austrian Chancellor Christian Kern in Ljubljana on Monday, Prime Minister Miro Cerar was adamant about Slovenia's consistent implementation of the Schengen border regime in the event of a new migration wave.

12 September—Crime investigators from Koper, working with their Croatian counterparts, have uncovered an international criminal ring, which earlier this year smuggled 18 irregular migrants from Albania into Slovenia.

13 September - A group of nine migrants who crossed into Austria irregularly have become the focus of a dispute between Slovenia and Austria, both of which refuse to accept them.

19 September - About 30 refugees accommodated in the asylum seekers' home in the Ljubljana (Vič) started a peaceful protest on Monday morning against what they say are unbearable living conditions, poor access to information and long administrative procedures.

10. TURKEY

Background and latest figures

According to the latest available figures from the Turkish Directorate General of Migration Management (DGMM) there are currently an estimated **3.1 million** foreign nationals present in Turkish territory seeking international protection. Most are Syrians (**2,728,726 individuals**) who are granted **temporary protection status**, while according to UNHCR, **280,364** asylum applicants from countries including Afghanistan, Iran, Iraq and Somalia constitute another significant group of foreign nationals requiring Turkish humanitarian and legal protection.

In addition, there are **422,895** foreign nationals present in Turkey holding residency permits including humanitarian residence holders. The exact number of the humanitarian residence holders is unknown, but it is estimated that there are a **few thousand humanitarian residents**.

Turkey's Temporary Protection regime grants the **2,728,726 Syrian migrants the right to legally stay in Turkey** as well as some level of access to basic rights and services. The vast majority - 2,474,542 individuals - live outside camps, officially called Temporary Accommodation Centers and are spread across the Turkish border provinces of Şanlıurfa, Gaziantep, Hatay and Kilis. 254,184 Syrians live in 26 camps that are also located close to the Syrian border.

Foreigners who wish to stay in Turkey beyond the duration of a visa or visa exemption i.e. longer than ninety days must obtain a residence permit. According to DGMM's 2015 Turkey Migration Report, there are **422.895** residence permit holders in Turkey within various categories of the residence permit. The residence permit include Humanitarian Residence permit holders but the exact number is unknown. It is believed that vast majority of this category are Iraqi nationals.

Apprehended/ Rescued Persons on sea

The Turkish Coast Guard has apprehended **30,866** irregular migrants and has registered 174 fatalities between January to 20th of September 2016 period. The increase in the number of apprehended/rescued migrants as of August is notable. These figures only include those apprehended and rescued by the Coast Guard; actual numbers of migrants and refugees departing Turkey by sea could be much higher than this

Readmitted Migrants and Refugees to Turkey

On 18th March 2016, EU and Turkey agreed on the readmission of migrants arriving Greece to Turkey after 20th of March. In this regard, according to DGMM reports, 484 migrants and refugees have been readmitted to Turkey from Greece between 4 April and 29 August 2016. The main exit points in Greece include Lesbos, Chios, Kos and Samos and the main entry points to Turkey include Dikili, Çeşme, Bodrum and Adana (through the airport).

The agreement aim was to replace disorganized and irregular migratory flows by organized and safe pathways to European countries, in this regard, it is agreed on that for every Syrian being returned to Turkey from the Greek islands, another Syrian will be resettled directly to Europe from Turkey. According to DGMM data released on September 6, 2016, there are 1.284 persons that have been resettled under this mechanism and mainly to Germany, Sweden, France and the Netherlands. The country breakdown is in the below chart.

Transit centre Vinojug

Accommodation facility located close to the Greek border in Gevgelija region, has a full capacity of approximately 1,100-1,200. Currently it accommodates **133** Syrian, Iraqi and Afghani nationals (29 female, 41 male and 63 children).

Until the beginning of March, prior to changes in the border regimes along the Western Balkans route , the **“Vinojug”, Gevgelija** Centre was **the main entry point** for migrants who were coming from Greece. In this transit Centre migrants and refugees who expressed intention to seek asylum in the country were registered and processed. After this procedure migrants and refugees spend up to several hours in the Centre before taking the train or other transportation to the northern border with Serbia.

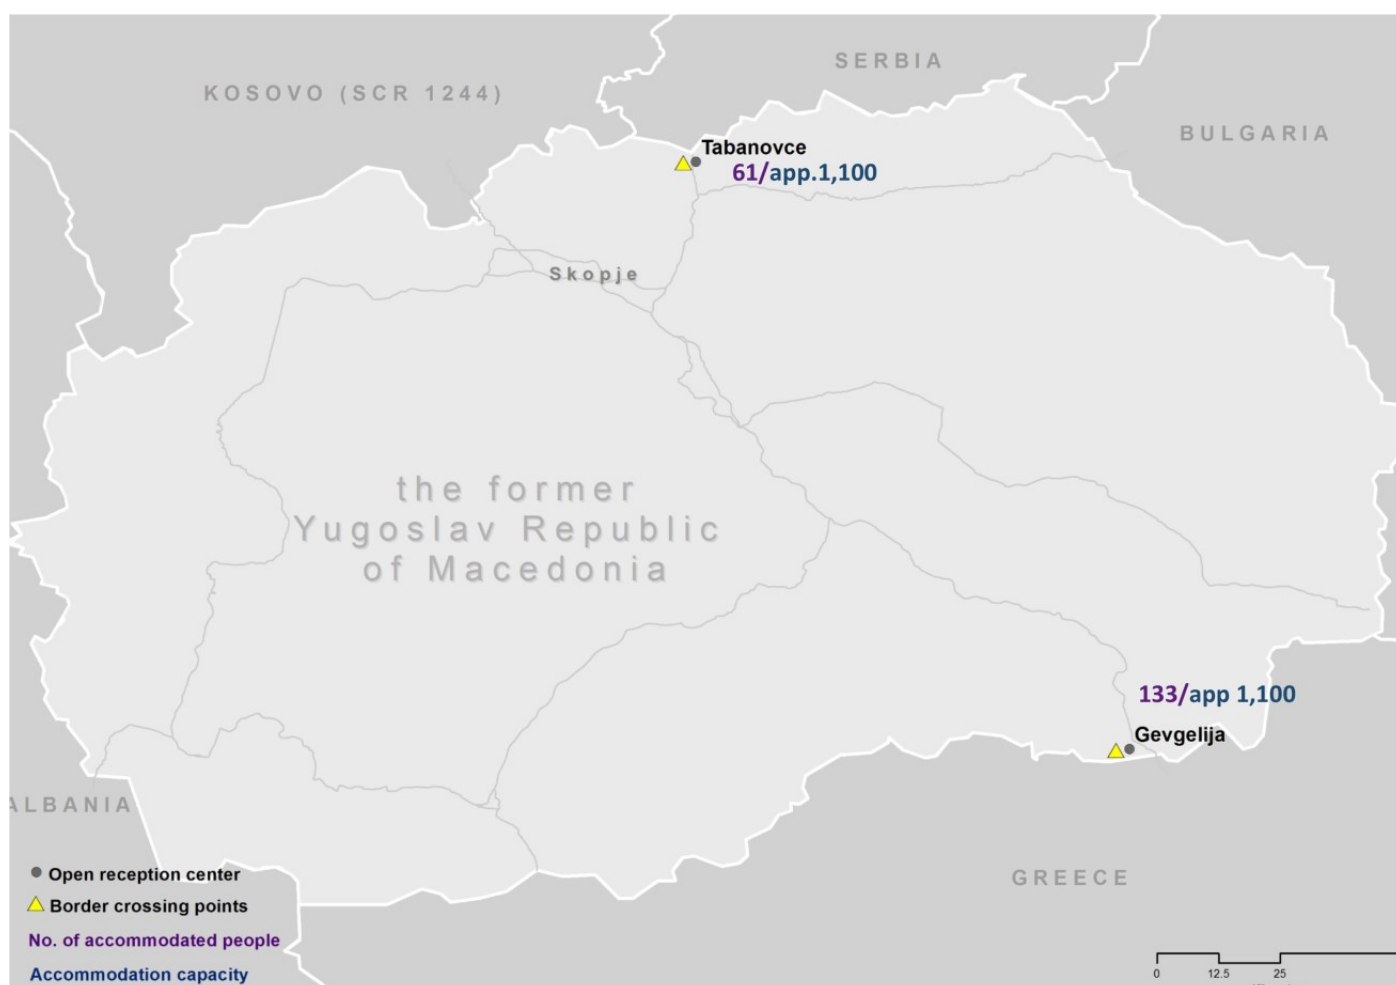

Tabanovce Transit centre

Accommodation facility located close to the Serbia border in Tabanovce region, has a full capacity of approximately 1,100. Currently it accommodates approximately 61 migrants and refugees. The main nationalities are Syrians and Iraqis.

Until the beginning of March, Tabanovce Transit Centre, was the main exit point for migrants and refugees who were heading to Serbia. Migrants and refugees were staying in the camp for a short period of time before continuing their journey towards Serbia.

The total number of accommodated migrants and refugees in the former Yugoslav Republic of Macedonia as of 21 September is 194 which is a **84%** decrease since the closure of the Western Balkans Route.

NIGER

IOM has been monitoring migrant flows in two key monitoring points in Niger since February of 2016 in Séguédine and Arlit. The former, Séguédine, represents a crucial point for migration to and from Libya and involves crossing extended, isolated stretches of desert in the before mentioned adverse climatic and safety conditions. Arlit stands as a key migration hub for those heading to Algeria and for those seeking economic opportunities in the mining industry along the border with Algeria.

From the beginning of IOM's flow monitoring activities in the nation to 22 August, there have been a total of **256,262** outgoing and **91,500** incoming migrants registered at flow monitoring points. For more information please see the latest [statistical report](#) by IOM Niger.

LIBYA

Background and latest figures

In Libya the systems for thorough data collection have not yet been established, with available information being provided by the Libyan Coast Guard, Libyan Red Crescent, and Non-Governmental Organisations (NGOs). As of 21 September 2016, the Libyan Coast Guard (or other entities) had rescued **12,472** irregular migrants and had reported **328** fatalities for 2016. The breakdown by month for those rescued at sea can be found below. These figures only include those intercepted at sea and rescued by the Coast Guard (or other entities); actual number of migrants and refugees departing Libya by sea are in fact higher than this.

On 7 September the Libyan Red Crescent reported 4 dead found ashore near Az Zawiyah.

On 7 September, 80 migrants were rescued by the Libyan Coast Guard Zuwara and 2 children and 25 females were a part of the total.

On 9 September, 150 migrants were rescued by the Libyan Coast Guard of Az Zawiyah.

On 11 September, 380 migrants were rescued by the Libyan Coast Guard of Az Zawiyah aboard three vessels with 110, 120, and 150 people on each.

On 12 September, 100 migrants were rescued by an unknown entity and further information is being sought.

On 15 September, 450 migrants were rescued by the Libyan Coast Guard of Az Zawiyah and were taken to the Al Nasr detention center.

Montenegro

Background

Montenegro has been largely unaffected by Mediterranean migration flows due to various reasons, including its geographical position. Nevertheless, Montenegro remains an important “contingency” country which might see an increase in flows if the route changes.

Latest figures

Data is collected from the Asylum Directorate, Border Police, and Asylum Centre. At the end of each working day, the Asylum Directorate provides information on how many new migrants/refugees intended to seek asylum (entered Montenegro), and the Border Police share information regarding how many persons have sought asylum at the border crossings and how many migrants have been apprehended entering irregularly or within the country irregularly.

Bosnia and Herzegovina

Background

The modest figures include both registered arrivals and apprehensions by the BiH Border Police of irregular migrants on entry and exit. Despite the low figures, BiH remains an important “contingency” country which might see an increase in flows if the route changes.

Apprehended irregular migrants are given the possibility of applying for asylum in BiH. The alternative options for apprehended migrants are to leave the territory or to return voluntarily to their country of nationality. The BiH Border Police supply numbers of registered and detected arrivals and exits to the country on a monthly basis.

According to the Border Police, in the first six months of 2016 there were no irregular entries of Afghan, Iraqi, Syrian, Iranian and Pakistani nationals to Bosnia and Herzegovina. During the same period, a total of 919 Afghan, Syrian, Iranian, Iraqi and Pakistani nationals entered the country regularly, possessing valid travel documents and visas.

Known entry and exit points

Known entry point by air: Sarajevo Airport from Istanbul.

Known entry point by land: Bijeljina city, on the BiH eastern border.

Known exit points: Mainly towards Croatia on the North-West border, no particular area.

Iraq	833
Afghanistan	605
Somalia	337
Syria	311
India	173

17 May – New guidelines were issued by the Finnish Immigration Service as a result of a modification of the Aliens Act. The modification restricted the granting of humanitarian and subsidiary protection for Afghan, Iraqi and Somali nationals. Read more [here](#).

07 August – According to the Finnish Immigration Service, since the beginning of 2016, a total of **3,763** migrants and refugees have arrived in Finland. This total includes refugees relocated through the EU relocations program.

For more information on the Northern Route (including Russia) see previous Flows Compilation Reports which are available [here](#).

16. EARLY WARNING INFORMATION SHARING NETWORK (EWIS)

Over the course of 2015 the Western Balkans route witnessed a sharp increase in numbers of mixed migration flows, most of which were transiting through Greece, the former Yugoslav Republic of Macedonia, Serbia, Hungary, and Croatia. These flows encompass refugees, as well as a wide range of vulnerable migrants, undocumented persons, unaccompanied and separated children, with the majority facing serious protection concerns. With up to 10,000 migrants crossing the border between Greece and the FYR of Macedonia, and between the FYR of Macedonia and Serbia on a daily basis during July and August 2015, it became critical to ensure the real-time provision of information on these flows, in order to ensure that relevant governmental agencies and humanitarian actors within these countries had adequate responses in place to address the basic needs of migrants. For more information about the project see the previous Flows Compilation Report available [here](#).

17. ABOUT THIS REPORT: DTM IN THE MEDITERRANEAN AND BEYOND

IOM's **Displacement Tracking Matrix (DTM)** is a suite of tools and methodologies designed to track and analyse human mobility in different displacement contexts, in a continuous manner.

In order to gather and disseminate information about the migrant populations moving through the Mediterranean, up the Western Balkan Route and through the Northern Route into Europe, in September 2015 DTM established a **Flow Monitoring System**. The Flow Monitoring System includes this weekly flows compilation, which provides an overview of migration flows in countries of first arrival and other countries along the route in Europe, and analysis of trends across the affected region. The data on registered arrivals is collated by IOM through consultations with ministries of interior, coast guards, police forces, and other relevant national authorities.

The system also includes **flow monitoring surveys** to capture additional and more in-depth data on the people on the move, including age, sex, areas of origin, levels of education, key transit points on their route, motives, and intentions. This data has been captured by IOM field staff in Greece, the former Yugoslav Republic of Macedonia, Serbia, Hungary, Croatia and Slovenia since October 2015. The analysis of collected data is available on the IOM portal for Mediterranean. The latest report of the "Analysis: Flow Monitoring Surveys in the Mediterranean and Beyond" (as of May 18) is available [here](#).
